The blue kangaroo on the wet milnare
Laughed out at the folly of green
To the sad lily pad that it set in a fret,
As it had not a flying machine.

So weep while we creep to the base common-place
Of the nebulous coffee and bur;

It's rarely we care, though we face the disgrace
Of the grease spots we see on the sun.

To think Materine had a spent penitent
When shopping in Kalamazoo!

It was not such a lot and I meant to dissent,
But what was the poor man to do?

To slam Rotterdam would not blow up Bordeaux,

As the false misogynists cry:

Then why should we, try to bake snow when we
know

We shall meet in the sweet by-and-by?

This may, I should say, sound absurd, but I've
heard

Greater nonsense by far in my time,

And read what is said to be great, that I'd state
Did not have either reason or rhyme.

It shows I compose just as well in my cell

As some much cracked-up poets still free.

I'm cracked, that's a fact, but some fellow might
tell

Them to join me in gay Kankakee.

The Tacoma will be down tonight from Pomeroy.

The Henry M. Stailey will be up tonight for Pomeroy.

The Lizzie Bay is on the Marine Ways at Cincinnati undergoing repairs.

The Golden Gate has entered the Cincinnati-Vanceburg trate as a tri-weekly packet.

All the Combine towboats have been put in fine condition for the coal-towing service.

Large numbers of immense channel catfish were caught in the Mississippi at Alton during the flood. Many of them weighed as much as a hundred pounds, and none weighed less than 75 pounds.

The Dave Wood was sent to the Marine Ways at Elizabeth. On the last trip up she went on the rocks at Weisburg and several planks in her hull were damaged. She will be thoroughly overhauled.

Lieutenant Turc of the French Navy has, after much study, devised a plan for a ship, the passengers on which will, he imagines, be proof against seasickness. He has caught the idea from the motion of a swing.

While fishing in the New river, fifteen miles above Montgomery, W. Va., with a band line around his waist, it is reported that William Skeese was drowned by an enormous fish in that river. The supposition is that he fell asleep, and one of the immense catfish with which this river abounds being caught upon the hook, pulled the unfortunate man into the water.

Old rivermen at Pittsburgh are positive in their predictions for good rise, which, if it should be of long enough duration, will carry the greatest fleet of coal-boats South that was ever sent out of that harbor. A great number of the towboats are lying a few miles below the city, and when the water reaches a sufficient height they can be attached to the fleets within a few hours.

The Wheeling Register says—"The conditions are well known to every manufacturer and merchant, and the 'On to Cairo' movement is no longer a myth—if it has ever been. There is but one way to accomplish the great end in view, and that is to unify the forces and the spirit of progress that has made the Ohio Valley famous in all parts of the earth for its marvelous production. The tremendous combination of brain, wealth and resources demands that an outlet shall be made for the production participated in by over 8,000,000 of people. To slackwater the Ohio from Pittsburgh to Cairo, and the building of thirty-seven dams, is indeed a gigantic and seemingly insurmountable undertaking, but is it any greater than what has been accomplished in establishing the great mills along the Ohio, whose capacity could be doubled if the Ohio were capable of carrying away the production."

NERVOUS HEADACHE BREEDS INSANITY

Many a person's whole pleasure in life is ruined by the fear of nervous headaches. Any little excitement, no matter what, business or social, brings them on. The feet and hands grow cold, the head is hot, the eyes stiff, the temples throb, and only in the quiet of a darkened room is relief obtained. This condition must be checked or it means complete mental ruin. To those people Dr. A. W. Chase's Nerve Pills come as a blessing. They do not stop, they cure the headaches. They do not blanket, they build up. They put the nervous system in a strong, vigorous, sturdy condition—a condition that gives one resistive power and enables them to enjoy life's pleasures.

Mrs. Minnie Atkman of No. 218 Lee street, Maysville, Ky., says—

"I have been bothered for a long time with pains in the region of my heart and with racking nervous headaches. I was advised to try Dr. A. W. Chase's Nerve Pills and I got a box at Chenoweth's Drugstore and now I am happy to say that the heart pains and headaches are completely cured. I cannot speak too highly of these pills as they are an excellent medicine in every particular."

Kodol Cures

This famous remedy puts the stomach and digestive organs in a healthy condition so that rich, red blood is sent coursing through the veins and arteries of every muscle, tissue and fiber throughout every organ of the entire body, and by Nature's law of health, full strength and vigor is soon restored to each.

Kodol cures indigestion, dyspepsia and all stomach disorders.

I have taken Kodol for nearly two months after each meal and it is the only remedy that gave relief from the terrible pains I endured. After a time I would take it but once a day, and now, while I keep a bottle handy I seldom need it, as it has cured me.
